Serving the Las Vegas Valley since 2001

Buy a solar system and get a **FREE** A/C!

A few restrictions apply, most homes will qualify.

Eliminate your power bill with our solar system and **FREE** A/C Package for as low as **\$120 per Month!**

Based on average 2,000 sqf home.

SAVE \$ and Be Part of the **Solution**

We can't ignore the FACTS. Traditional energy types and production methods are damaging to our planet and our health. Don't let the recent PUC decision on solar net metering deter you from choosing solar. Solar is still the best financial and environmental choice. The sun isn't going anywhere! Here in southern Nevada we are fortunate to be in one of the best areas for solar power production in the US. Las Vegas has 3,782 hours of sunlight a year! Solar power is the responsible choice for Southern Nevadans because it saves WATER, reduces greenhouse gas emissions, and contributes to local green jobs.

Energy Efficiency Evaluation with every Estimate.

Lower your overall energy usage and maximize your solar system!

Take advantage of the federal tax credit.
